STAFF MEMBERS HELP KEEP CHRISTMAS SAFE THIS YEAR!

By following a few guidelines, you can help keep families safe while they pick out their Christmas trees this holiday season!

Stay home when you are sick and get medical care.

Wash your hands often with soap and water for at least 20 seconds. Use alcohol-based sanitizer if washing hands is not possible.

Wear gloves and a mask.

Regularly and thoroughly disinfect high touch areas, like your tools, workspace, clothes, work vehicles and equipment.

Practice social distancing by keeping at least six-feet apart from coworkers and customers.

This farm is a proud member of the Pennsylvania Christmas Tree Growers Association
