BRING YOUR OWN PORCH POT WORKSHOP

Supplies Recommended using guidelines from PA Farm Show Entry

(Note: welcome to bring any size porch pot you like though)

Porch pot entries shall be made with natural evergreens (no princess pine) using a container of any shape that will fit into an 18" diameter cylinder, 18" high or smaller.

Overall size: the total arrangement must fit into a 24" diameter cylinder, 36" high or smaller. Natural and artificial decorations may be used with a bow being optional.

Please bring enough floral foam or loose soil to fill your container—this will help support and secure your greens during assembly.

Plan for about 3–5 lbs of mixed greens (depending on size pot you are bringing), which is typically enough to fill a porch pot .

Feel free to bring any decorations you'd like to include—real or artificial (berries, ornaments, picks, etc.).

Don't forget wire and ribbon for your bow—we recommend wired-edge ribbon for the best shape and hold.

Bring hand clippers/snips to cut and shape your greens as you design.
